[Names and times in red are those runners who have set their time today. They can only qualify for one point irrespective of finishing position. ]

Many thanks to everyone who turned out this evening. There were 28 starters and 24 finishers. Some cracking performances again today in spite of the high temperatures (allegedly 26.7°C at 18.50hrs) although many taking around 20 – 60 seconds longer than normal. Everyone above the red line has improved upon their previous time.

Next month's start times will be based upon today's finish (for those that ran today and if not will be based upon their previous finish time). Anyone that finished before 19:20:00 will have their start time reduced by the amount they improved. Anyone who finished after 19:20:00 will have their start time extended by 25% of the time they took beyond 19:20:00 subject to a maximum increase of 30 seconds.
